TABLE I. Military Expenditures, Armed Forces, GDP, CGE, Population, and Their Ratios,
By Group and Country, 1995-2005 — continued

E	Estimate based on partial or uncertain data.
NA	Not available. (Approximate estimate used in group totals.)
R	Rough estimate.
0	Nil or negligible.

- a. In order to reduce distortions in group totals caused by data gaps for individual countries and years (shown as "NA"), rough approximations for all gaps are included in the totals.
- b. Estimated by adding arms imports to data on military expenditures, which are believed to exclude arms purchases. However, it should be noted that the value of arms deliveries in a given year as shown in Table II (converted at current exchange rates) may differ significantly from actual expenditures on arms imports in that year.
